Sensient Food Colors Will Showcase Enhanced Natural Colour Range and Customer Support at Gulfood 2017

Sensient Food Colors is offering an expanding portfolio of natural colours and colouring foods available for food and beverage manufacturers, combined with expert knowledge across the whole application range as well as industry leading local customer support.

The ability to reformulate from synthetic to natural colours is also a key requirement for success. With its long experience in both synthetic and natural colours, Sensient is the perfect partner to support customers wishing to reformulate their key brands with natural colours, smoothly and efficiently.

Neil Philpott, head of Sensient's local Dubai office comments: "Innovative colour solutions for a wide range of application will be on display, with the broadest portfolio in the industry. Sensient takes a truly collaborative approach to working with customers, using our knowledge to help manufacturers really make their products stand out from their competitors with colour."

Whatever your needs Sensient offers you the confidence to develop the colour solution best for you and your products.

Please visit us on stand S3 / A10 at Gulfood Manufacturing in Dubai October 31- November 2, 2017.
